How to help your child at home?

English:

- Go to the Year 1 DB Primary Page English updates.
- Keep watching the weekly phonics videos to keep up with your learning.
- Listen to your child read every day.

Maths:

Why not watch the white rose hub maths videos to help you with your learning?

French:

Draw your favourite animals and label them in French and English. Do any of the words look or sound similar?

Science:

Go on a mini beast hunt at the park. What different mini beats can you find? What is similar between them? What is different? What do they need to survive?

Science:

Go on a material hunt in your home and see how many different materials you can identify?

Computing:

Log on to Purple Mash and use the 2Code Program to try out your new computing skills at home.

History:

Create your information poster about a famous transportation invention we have learnt about in class or an invention that you have researched about at home.

Geography:

Create your own poster about your favourite country. What continent is the country in? What is the weather like? What animals live there?

Art:

Why try create your own paintings at home? Can you practice the printing techniques we have learnt?

Design Technology:

Create your own breakfast smoothies! What delicious fruit and vegetables can you add?

Physical Education:

Choose a favourite song and create a dance routine to it. Perform it for your family and toys. Why not even include some of them in your dance!

Religious Education:

Help plan prepare the food or the decorations for one of your family's special days. Why is this day special for your family?

PSHE:

Check your home for any hazards! Is your fire alarm working? Can you see any hazard signs when you are out and about?

Music:

Choose your favourite story and then find a song that matches a part of the story. Notice that when you watch a film that the music helps tell the story. Why have the film makers chosen that song for that part of the film?
